

Your kids want to talk. Our tools help you do it.

FLEXTALK.ORG is packed with topics created *by* students *for* students.

Here's what they've come up with: How to say "No" to almost anything. Don't compare yourself to others. How to end a toxic relationship. Benefits of being the youngest child. How to manage your anger issues.... And so much more!

Just pick a topic. Watch the video. Have a conversation.
